

Cyber Security & Professional Services

Protecting Your Digital Assets in an Evolving Threat Landscape

Gaming Laboratories International's (GLI®) Cyber Security and Professional Services division, **GLI® Secure**, is your global resource for world-class expertise. As the first and only lab to offer fully integrated compliance and cyber security services for suppliers, regulators, and operators worldwide, GLI Secure delivers proactive solutions tailored to the unique demands of gaming and hospitality — helping you strengthen defences, validate resilience, and ensure compliance across every layer of your digital ecosystem.

Our Information Security Solutions

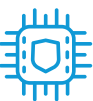

Software Quality Assurance & Testing — Rigorous QA and independent testing that improves software quality, reduces defects, and accelerates time-to-market.

Penetration Testing Services — Vulnerability assessments, pen testing, social engineering simulations, and security audits that expose weaknesses before adversaries do.

Governance, Risk & Compliance (GRC) — Multi-framework compliance support: ISO/IEC, PCI/DSS, NIST, GLI-GSF, and virtual CISO services across 700+ jurisdictions.

Core Systems Modernisation — Strategic guidance to modernise legacy infrastructure and build resilient, future-ready systems while controlling costs.

Lottery & Gaming Specialisation — Deep expertise across land-based, iGaming, sports betting, and lottery environments worldwide.

Why GLI Secure?

The GLI Advantage

Deep Technical Expertise — World-class professionals and industry thought-leaders solving your most complex cybersecurity challenges.

Proven Global Reach — Six continents, 700+ jurisdictions, and nearly 2 million certified items since 1989.

Measurable Business Value — Improved software quality, managed risk, and reduced implementation costs.

24/7/365 Protection — Ongoing remediation and monitoring to keep you secure around the clock.
